Forestry Takes Over 16th Sec. Lands

Forestry is a booming business in 16th Section School Lands in counties of Mississippi where boards of Supervisors have entered into written agreement with the 1962 Legislature. Another 31 counties have not yet signed the agreement.

Through the cooperative efforts of the Board of Education and the Commission, 300,000 acres of forest land are being groomed to produce millions of dollars of revenue for the education of school children.

Hancock County has taken the lead in planting trees on school lands when they recently authorized the Forestry Commission to plant an additional 900,000 seedlings. They had already signed up 600,000 seedlings this year and in the previous two years had planted 500,000 seedlings.

When these trees are all planted, the Commission will have planted two million trees on 2,200 acres of school lands in Hancock County.

Board President R. G. Hubbard, states that this year's trees are being planted under a 50% federal reimbursement plan. He added that cull trees have been donated to release good trees to grow on 250 acres of school lands.

Now being marked for active working for naval stores 940 acres and that about 1,000 worth of timber has been under good forestry practices for the past twelve months.

According to the Commission's statement, Forester W. W. Haskins, the 5,000 acres of school lands in Hancock County are being planted with cypress, live oak, and slash pine.

At present, the county is in the process of planting 900,000 seedlings on 2,200 acres of school lands.

Members of Hancock County Board of Supervisors examining a year old slash pine seedling planted on 16th Section School Lands by Mississippi Forestry Commission.

By the end of the current planting season 2 million seedlings will have been planted on Hancock School Lands. These are J. M. Frierson, James Nease, Charles Lavinghouse and Area Forester Glenn Purvis. Kneeling are Messrs. Forester W. W. Graham, of Gulfport, Education and Enforcement Officer Otto Finane, and R. G. Hubbard, President Hancock County Board of Supervisors.

Katcha Katcha

Dave Perkins, vice-president of the Mississippi Wildlife Federation, speaking before a special call meeting of the Board of Directors of the Hinds County Hunting and Fishing Club, February 2nd, at the King Edward Hotel said, "Our laws of this State must be honored. If we have a law on the books which beyond a shadow of any doubt can not and will not be enforced, then the only honorable thing to do is to repeal the law. The game wardens of our state are at a loss as to what to do under the present out dated law which makes it a violation of the law to hunt and fish on Sunday. I have always been taught to respect and obey the law and I believe in separation of church and State, so since this law encroaches upon legislating one's morals, it should be repealed. In fact, this law has been repealed by the open disregard for this law by the public and even by the law-enforcing officers themselves."

"It is most beneficial to get out and enjoy some form of recreation, and you should have the freedom to decide when and what you want without being considered as adding to the lawlessness of our State. It is considered a scandal for any type of a peace officer to close his eyes to one law, and enforce another—yet this is what we are faced with here in my native State of Mississippi."

"There has been a bill introduced in the present legislature by Representative Frank Shanahan of Warren County, House Bill No. 147, which will make it lawful to hunt and fish and engage in other forms of participant sports, such as boating, swimming, horseback riding, golf, tennis, bowling, and archery on Sunday. I urge this Club and every Hunting and Fishing Club in the State of Mississippi, as well as many other sportsmen who are not members of clubs, to contact their legislators and ask them to support Hb No. 147 and thereby, put our State and officials in a position to enforce all laws as our founding fathers intended."

With the water having cleared up Jordan River fresh water fish have been hitting the past week. The fishing is better in the main stream as the water in the bayous is still on the shady side. Jim Kelly says some fish have been caught down his way on Mulatto Bayou, White and Cowan Bayous. For those who don't know where these bayous are they are just this side of Pearl River on Highway 90 and are excellent fishing grounds for both fresh and salt water fish. Jim has good fishing stiffs, etc.

August Rauxet and son, with Al Baudry caught around 30 green trout up Jordan River Sunday.

Sorry to lose our fishing and hunting partner "Whitie" Duhman who is returning to New Orleans this week.

William A. Fuller is now living in Bay St. Louis after his retirement from the army. Bill says he expects to catch up on his fishing.

Other newcomers to the Bay are Joe Trasky and Bill Lester from Detroit who will join the commuters to Michoud Missile Plant. Joe and Bill are both ardent fishermen and picked Bay St. Louis as a place to really enjoy their favorite pastime. Welcome fellows!

Sorry to hear that our fishing partner and paddler Tony Necaise

is back at the hospital. In McGee's Harry up and get well, Tony.

August Ferris was up town Monday reminiscing about the old days when he used to go fishing with us. August is rather up there in age but still hale and hearty. He still loves to talk about the years he spent in New Orleans as a baker.

"Pete" Peterson skipper on the "Transition" Percy Stern's yacht says he is getting the boat ready for this summer's fishing trips. The yacht will be brought to the yacht harbor this weekend.

Local fight fans were glad to see their favorite Ralph Dupes win his fight with Scott Saturday night. He won his fight unanimously.

The hunting season is just about over. Quail hunting ends this week.

The St. Stanislaus Rock-a-chaws defeated Sacred Heart of Hattiesburg 64-50 Sunday night. Mike Gore was high man for the night with 24 points. The Little Rocks also won.

Local gardeners have started readying their gardens for spring planting. Hope the weather continues good.

Most fishermen had better go to artificial fishing with frozen shrimp selling at 85 cents a pound. Rather expensive fishbait.

Believe it or not green trout are hitting surface lures. Of course, some are being caught on under water baits by trolling.

Sorry to learn that Oscar Bragg has been taken to Veterans Hospital. Hope you have a speedy recovery, Oscar.

While in New Orleans last week, learned that crayfish are being caught now, however next month and April are best time for this kind of sport.

Henry Lang says it won't be long now before he will be after soft crabs. He has the old light ready and raring to go.

Uncle Sam guarantees almost double your money back
When you hold U.S. Savings Bonds 17 years, 9 months

U.S. Savings Bonds keep on growing after regular maturity. In fact, a \$25 Bond will pay you \$36.25 at the end of 17 years, 9 months. The cost to you—\$18.75.

The reason is an extra 10-year earning period. It means you can set up an attractive plan for extra income or retirement. And you can do it for just pennies a day.

Other nice features about U.S. Bonds: you can buy them on the Payroll Savings Plan. Your Bonds are replaced free if stolen or destroyed. And every Bond is a share in a stronger America.

Doesn't this sound like a good way to save for your goals?

Sweetpotato Growers Will Receive Help In Battling Weevils

STATE COLLEGE, Miss.—Mississippi sweetpotato growers will receive some extra help in battling the destructive sweetpotato weevil.

State and federal agricultural officials meeting recently in Atlanta decided to launch an all-out attack on the weevil—a pest that has been seriously crippling sweetpotato production in seven Southeastern States.

The decision to renew the attack on the weevil was stimulated by the early January freeze that killed many of the weevils left in the field. Agricultural officials predict that the freeze will reduce the weevil population to the lowest it has been in years. And they feel that is the time to deal the pest an even more damaging blow by killing weevils

that survived in storage. U. S. Department of Agriculture state and federal plant pest control experts explain that most of the weevils remaining in the abandoned potato fields were starved to death because their food supply will rot from the freeze.

Representatives from the states of Alabama, Georgia, Florida, Louisiana, Mississippi, South Carolina, and Texas attended the meeting along with officials of USDA.

T. D. Person of Jackson, state supervisor of USDA's Plant Pest Control Division, explains that the campaign against the weevils will have to be done in a hurry—between now and planting time—if the state is to take advantage of the helping hand given by nature.

R. F. Coomer of State College, chief inspector of the State Plant Pest Control Division, says that details of how the program will be carried out in the state will be announced as soon as plans have

been completed. Efforts to seek out and kill weevils in storage will be concentrated in the Southern part of the state. The 21 counties known to be infested are: Adams, Copiah, Covington, Forrest, George, Greene, Hancock, Harrison, Jackson, Jones, Lamar, Lawrence, Lincoln, Marion, Pearl River, Perry, Pike, Simpson, Smith, Stone and Walthall.

Industries In 1961

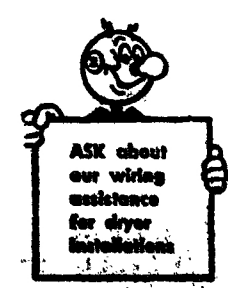

Industrialization reached a new all-time high for 1961, with capital investment in new and expanded manufacturing plants totalling \$179,160,000. This figure included \$154,880,000 for 63 new industries and \$24,270,000 for 63 expansions. When in full production, these 151 projects will provide an estimated 10,322 new jobs—7,018 in the new industries and 3,304 in the expansions.

Clothes Dry Better Electrically

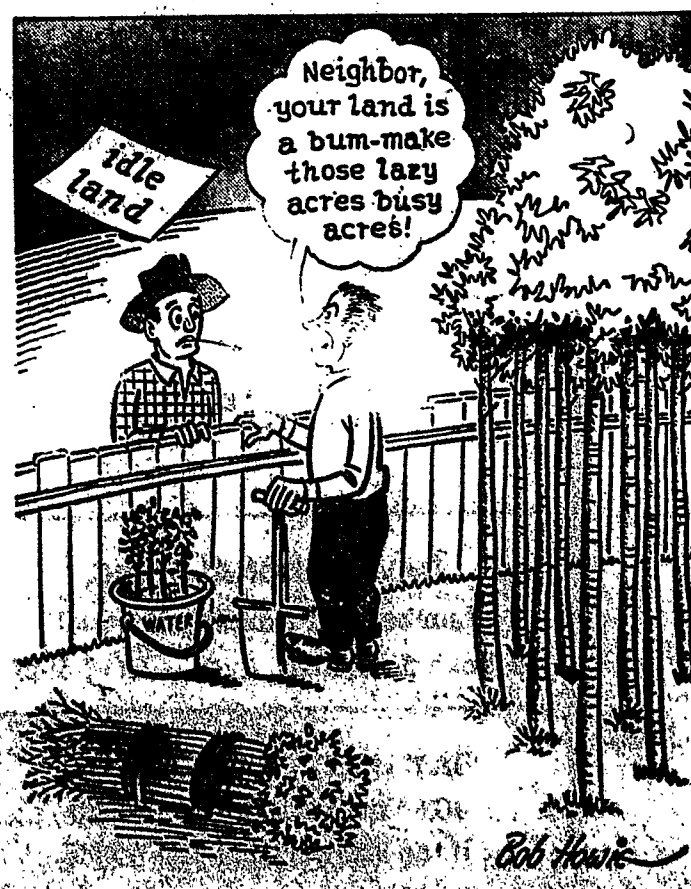

You can turn on the sun whenever you like with an automatic electric clothes dryer. No need to worry about the weather, clothes drying space, or time for hanging things on the line.

Flameless electric heat dries clothes without fuel odors in your laundry room or in your clothes. Your clothes come out soft and sweet-smelling. See your appliance dealer soon and kiss away those washday blues.

NEVER TOO LATE...

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Matthew	24	36-44
Monday	Matthew	25	1-13
Tuesday	Romans	8	31-39
Wednesday	Colossians	1	3-8
Thursday	Colossians	1	9-14
Friday	II Corinthians	4	1-5
Saturday	Hebrews	10	19-23

How I used to hate to practice the piano when I was a child! Yet, today, how I wish I could play well — and that I had the time to practice!

So often, we turn our back on opportunity, only to find, when we want it, that it's too late.

Not so with the Church. The Church gives you no reason for regrets. If, long ago, you gave up going to church, there is no reason why you can't start again now. Even if you've never gone to church, you'll find a warm welcome awaiting you this and every Sunday. For God's love is constant and everlasting.

In the Church it is, literally, never too late.

Film Biography of
Christ Available To
Churches, Civic Club, Etc.
A moving film biography of
Christ, entitled "The Coming of
Christ" has been made available
for showing to church, civic, ed-
ucational and professional groups by
United States Steel Corpora-
tion.

Following enthusiastic response
from showing of this film on the
NBC television network during the
last two Christmas seasons, U. S.
Steel has made 50 prints available
for group showings in Alabama,
Mississippi, Georgia, Florida,
North and South Carolina and
Tennessee.

Prints of the 16-millimeter,
sound, color film may be obtain-
ed on a loan basis without charge,
through the District Director of
public Relations, United States
Steel Corporation, Box 599, Fair-
field, Alabama.

Already, more than 700 requests
for the film have been filled in
this area.

"The Coming of Christ" brings
Christ's birth, boyhood and min-
istry to life on the screen through
use of the still-pictures-in-motion
technique.

Illustrated by some of the
world's art masterpieces, the film
is of special interest not only to
religious groups, but to students
of art as well. Works by Bellini,
El Greco, Titian, Michelangelo,
Caravaggio, Raphael, Velasquez
and others are included.

Running time is 29 minutes.

ADVANCED PAYMENT
AVAILABLE UNDER
FEED GRAIN PROGRAM

Producers who participate in
the 1962 Feed Grain Program are
entitled to payments for diverting
acres from production of corn
and grain sorghum, according to
Tommy R. Shaw, Chairman of the
Hancock Agricultural Stabilization
and Conservation County Commit-
tee. Up to half of the estimated
payment to be earned may be held
in advance when the producer
signs up under the program.

Chairman Shaw said this pro-
gram provisions should be of sub-
stantial benefit to growers who
can use some extra ready cash
during the spring planting sea-
son. Signup for the program runs
from February 5 through March
10.

The program offers payments to
producers for diversion of feed
grain cropland to approved soil
conserving uses. The program is
voluntary, but farmers who coop-
erate must divert a minimum
acreage in order to be eligible for
price support on the normal pro-
duction of their 1962-crop corn
and grain sorghum acreage.

Farm payment rates will vary
according to the farm's productiv-
ity in relation to the county aver-
age productivity and the number
of acres diverted.

The minimum acreage for div-
ersion from corn or grain sorghum
will be figured from the "farm
base" which is determined from
the average acreage on the farm
used in producing the crop in
1959-60. The minimum reduction
is 20 percent of the base. The
maximum depends upon the size
of the farm base.

Farmers who are interested in
participation in the 1962 Feed
Grain Program should get in
touch with the ASCS county office
at their earliest convenience.

Near Million Person
Statistics show that visitors to
the National Military Park in
Vicksburg totaled almost a million
in 1961. Actual figure of total vis-
itors to the famed tourist attrac-
tion was 938,838, an increase of
139,522 over last year. Biggest
months of visitation were June,
July and August.

Livestock Brands
Expire June 30, 1962
Must Be Re-recorded

Starting next month, notices
will be mailed to all owners of
brands registered with the Missis-
sippi Livestock Brand Bureau. The
notices will inform the owners
that June 30, 1962 is the date of
expiration of their brands regis-
tration. Each brand must then be
re-recorded for the period '62-'67.

Brands Supervisor B. F. Rod-
gers of the Livestock Brand Bu-
reau office may be contacted for
further details on the registration
or re-recording. No brand may be
used unless it is registered with
the Department of Public Safety.
It is unlawful to use an unregis-
tered brand... someone else may
have recorded the same brand for
their own use.

The fee for recording a brand is
only \$2.00 (two dollars) for a
five-year period. In view of the
statistics it is the cheapest cat-
tle theft insurance available. Statis-
tics for past years show that
95% of all stolen cattle are un-
branded. A brand on cattle is
like a tag on a car... it can be
traced easily. However, unlike an

Cattle Feeding Meeting At MSU February 27th

State College, Miss.—A Beef
Cattle Feeding and Management
Conference will be held February
27 at Mississippi State University,
according to E. E. Grissom, lead-
er in animal husbandry of the
Agricultural Extension Service.
This conference in the Animal
Husbandry Service Building will
begin at 10 a.m. and end about
2:30 p.m.
Many cattlemen and county
agricultural workers from all
parts of the state are expected
to attend. A special invitation is
extended to feed mill operators,
feed dealers and feed salesmen.
The welcome will be by Dr. W.
A. Giles, vice president for ag-
riculture and forestry, Mississippi
State University.
Following will be these three
well-known Mid-South agricultural
leaders and their subjects: George
Carter of Burnett-Carter Com-
pany, Memphis, "The Cattle Feed-
ing Picture: Feed, Supply and
Demand in the South"; Ray
C. Morris, National Production
Manager in charge of livestock,
Olin and Sons, and Company, Inc.,
St. Louis, "The Sound Feed Cattle";
John Hembree, vice president, Uni-
on Planters National Bank, Mem-
phis, "Commercial Feeding in the
Southeast and Financing a Feed
operation".
On the afternoon program, J. Q.
DeMott, cattleman of Okolona,
will discuss his calf feeding pro-
gram.
The remainder of both the
morning and afternoon sessions
will be conducted by Mississippi
Experiment Station and Exten-
sion Service animal husbandmen.
Dr. H. W. Essig will discuss the
value of hormones, feed addi-
tives and vitamin A in feeding
cattle. He will reappear with the
subject of protein needs and
sources.
Dr. C. E. Lindley, head of Ex-
periment Station animal husband-
ry, will talk about feed prepara-
tion, grinding concentrates, rough-
ages and pelleting feeds. Feeding
high moisture grains will be the
subject of Jim Collins of the Del-
ta Branch Experiment Station
staff.
E. G. Morrison, superintendent
of the Brown Loam ranch Experi-
ment Station, will discuss winter

URGE MOTORISTS TO HAVE VEHICLES INSPECTED NOW

Motorists are urged to have
their vehicles inspected as soon
as possible to comply with Mis-
sissippi's Motor Vehicle Inspec-
tion Law. Director of Motor Vehicle
Inspection R. L. Morgan says that
inspections are lagging because
of the bad weather we had in
early January. He stresses the im-
portance of having the inspections
made as soon as possible to avoid
a rush at the last minute.
There are approximately 1100
official approved inspection sta-
tions in the state. There are sta-

ing beef cattle.
Extension animal husbandmen
on the program will be R. O.
Buckley, speaking on the kind
and grade of cattle to feed, and
W. M. Swoope on calving dates.
Disease and parasite problems
in beef cattle will be discussed
by Dr. J. W. Scales, head of the
veterinary science department of
Mississippi State University.
A question and answer period
will help to make sure that every-
one present gets the information
desired, Mr. Grissom said.

tions located in almost every
town in Mississippi. With the
number of approved locations no
one is very far from an inspec-
tion facility. The inspection fee
is only \$1.25.
One dollar of the inspection
fee goes to the inspecting sta-
tion and 25 cents to the High-
way Patrol.
For safety's sake and your own
protection have your vehicle in-
spected as soon as possible.

SURPRISE VISITOR

Latham Garriga had a surprise
visit Tuesday from Harry Klaw-
witter of Millville, N. J.; he hadn't
seen him in 18 years.
Mr. Garriga and Klawwitter

Industry: A powerful link to community prosperity

Homes, stores, churches, schools, highways,
playgrounds. How many there are, how
modern they are is determined by a
community's share of industry. In a community
—it could be yours— for each 100 people
employed in industry
—an additional 152 are put to work in retail
stores, filling stations, insurance offices,
banks and other businesses in the same
community.
—four new retail stores are needed and
retail sales increase \$360,000 each year.
—107 additional automobiles are purchased.
—112 families are added; the community
population increases by 276 people.
—Personal income increases \$588,000 and
bank deposits show a \$270,000 gain.
This is the economic lift industry provides to
a community. Multiply it many times and
you can easily see the billion-dollar assist it
gives Mississippi's state-wide economy. Good
reason to welcome industry and appreciate
it for all it's worth!

Tuesday Weld Takes Up Residence As Teenage Terror in "Bachelor Flat"

No one can accuse Tuesday Weld of lacking drive. At 18, she makes her sixth starring appearance on the screen as a mischievous school girl who takes time off for a romantic interlude, in the 20th Century-Fox CinemaScope-DeLuxe color comedy-romance "Bachelor Flat," co-starring Richard Beymer, Terry-Thomas and Celeste Holm, opening Sunday at the Star Theatre.

Tuesday won movie audiences right from the start with her portrayal of Comfort Goodpasture in the 20th Century-Fox adaptation of Max Shulman's comic novel "Rally Round the Flag, Boys!" She went on to roles varying from the heart warming appeal of "Five Pennies" to the serious dramatic themes of "Return to Peyton Place" and "Wild in the Country."

In "Bachelor Flat," Tuesday as the daughter of Celeste Holm, pursues Professor Bruce Patterson (TERRY-THOMAS) in an attempt to win the professor, who plans to marry her mother. By hiding her identity from him, her presence in his bachelor home creates complications for him that are resolved only when Tuesday falls in love with another man of her own age, Mike Polanski (RICHARD BEYMER), a cynical young law student.

Tuesday had to develop new skills for this role. She learned to manipulate a fishing reel for a scene in which a fish gets the best of her. She had to learn to give artificial respiration to Bey-

mer, whom she rescues in the same sequence.

Miss Weld was put through her paces by Frank Tashlin, who scripted and directed "Bachelor Flat." "Frankly, I thought I'd develop claustrophobia from some of the scenes he thought up," says Tuesday. "I had to hide in closets, liquor cabinets, crawl under beds and get chased by almost everyone in the film."

Stork Shower

Mrs. Sam Noto entertained at a stork shower Sunday night for Mrs. Charles Staehle.

A pink and blue color scheme was carried out in the decorations.

Mrs. Noto's granddaughter, Rene Chambers, rolled the gifts in a bassinet, and the honoree was presented a corsage of pink and blue carnations.

Stork Shower

Mrs. J. C. Koenen, Francis Poolson and Gilbert Gayart were hostesses Thursday night at the Koenen home at a stork shower honoring Mrs. Charles Poolson Jr.

Gifts were presented the honoree in a bassinet, and Mrs. Poolson was given a corsage made of a baby rattle and pacifier.

Games were enjoyed by the 20 guests present with Meedames Roger Reinike, Merlin Ladner and Oscar Bethea winning prizes.

ATTEND MEETING

County Agent O. O. Swords attended a horticultural meeting in Hattiesburg Wednesday.

The purpose of the meeting was to discuss production of vegetables and the control of diseases and insects.

"Colossus Of Rhodes" Starts Next Wednesday At Legion Theatre

In the year 224 B.C., a gigantic bronze statue more than 100 feet high, representing Apollo, the Sun God, which had been erected at the entrance to the port of Rhodes near Asia Minor, was toppled by a spectacular earthquake and a resultant tidal wave. This statue, the Colossus of Rhodes, required twelve years and thousands of slaves to build. Its demolition by the earthquake put an end to what now is called the 5th Wonder of the World.

This remarkable event of legendary history is recreated in realistic detail in the thrilling climax of Metro-Goldwyn-Mayer's spectacular new release, "The Colossus of Rhodes," under the direction in SupertotalScope and color, starring Rory Calhoun with lovely Italian actress Lea Massari, George Marchal, Conrad Sanmar, Angel Aranda, and other noted European stars in a cast of thousands of players and extras.

Every trick in the book of movie technical wizardry was employed by the makers of "The Colossus of Rhodes," under the direction of Sergio Leone to create the tremendous earthquake and its aftermath of destruction, panic and terror. Ships are tossed by the nightmarish seas. As the great cracks form in the earth and gale winds strike in cosmic fury, buildings topple along with the great Colossus, people throw themselves from windows and the cataclysm turns the island of Rhodes into a living hell.

"The Colossus of Rhodes" depicts the story of the intrigue of ancient Phoenicians to take over the island kingdom of Rhodes and thus threaten Greece by menacing the trade routes of the Mediterranean. The story's climax takes place amid a tremendous battle between the soldiers of Rhodes and Phoenician mercenaries in which slaves and captives attempt to escape from the bowels of the colossal statue, with the earthquake turning the tide in favor of the forces of Rhodes and their Greek supporters, led by Rory Calhoun.

Benefit Show

Sister Leonardine, principal St. Rose de Lima School, announced a benefit variety show will be held at the school at 7:30 p.m. Sunday, February 11. Donation will be 50 cents per person.

Stocks Of Soybeans

Stocks of soybeans stored in all positions on January 1 in the State at 15,970,000 bushels were the highest of record. This is 11 per cent above the January 1, 1961 holdings of 14,457,000 bushels. Some of the increase in stocks over a year earlier can no doubt be attributed to the record production in 1961.

Announce Engagement

Mr. and Mrs. J. M. Robinson of Hattiesburg, Miss., announce the engagement and approaching marriage of their daughter, Patricia Ann, to William Anselm Monti, son of Mr. and Mrs. Thomas Francis Monti of Bay St. Louis.

Miss Robinson is a graduate of Martin High School, Martin, Miss., Mr. Monti, a graduate of Bay St. Louis High School, attended Mississippi Southern College in Hattiesburg. He is presently associated with T. V. Station WDAM, Hattiesburg.

The marriage will take place at a Nuptial Mass at noon, February 24 in Our Lady of the Gulf Catholic Church, Bay St. Louis, followed by a reception at the Parish Hall.

Friends and relatives are invited through this medium.

Mrs. Norma Cuevas, 83 Died Saturday At Gulfport Hospital

Mrs. Norma Louise Cuevas, 83, sister of Claude Peterson of Bay St. Louis; Mrs. Alcide Garriga and Mrs. Melinda Cuevas, of Fenton Community, died Saturday, February 3, in Gulfport Memorial Hospital.

Mrs. Cuevas, a resident of Pass Christian for the past 30 years, was a member of St. Paul's Catholic Church.

Other survivors are five daughters, Mrs. Gertrude McMillan, Gulfport; Mrs. Ada Neacise, De Lisle; Mrs. Edna Neacise, Mrs. Nora Williams and Mrs. Malena Ladner, all of Pass Christian; 12 grandchildren and 41 great-grandchildren.

The funeral was held from the residence at 1:45 p.m. Monday followed by religious rites at St. Paul's Church at 2 p.m. with the Rev. J. P. McGlade officiating. Interment was in Rotten Bayou Cemetery, Fenton.

The South is growing more wood than is being used. For example, in the period from 1935 through 1960, wood-using industries consumed 147 billion cubic feet. Yet the region's forest still contain 131 billion cubic feet of wood, as compared to 120 cubic feet in 1935, showing a gain of nine per cent while that mammoth harvest was taking place.

Complex research, diagnostic and treatment services needed to deal with many of the baffling problems of crippling birth defects are exemplified by the complicated equipment shown above. Michael Norman, ten, victim of a birth defect known as "open spine," is undergoing tests. The equipment is used in the Birth Defects Clinical Study Center, Vanderbilt University School of Medicine, Nashville, Tenn., financed by New March of Dimes funds. Dr. Frank Loda is operating the machine.

Hancock North Central, Pass Christian Win In Ocean Springs

Hancock North Central and Pass Christian won the Gulf Coast Conference basketball events Saturday night in the annual conference tournament in the Ocean Springs High School gymnasium.

North Central, with a 55-47 victory, won the boys' title, while Pass Christian's girls' team defeated St. Martin 60-56.

In the girls event, the teams were tied 13-13 at the end of the first quarter. Pass Christian was in front 33-32 when St. Martin pulled in front in the third quarter. At the end of the third quarter, St. Martin had a six-

point lead, 47-41, but Henriette Wescovich and Sandra Martin came back with a strong fourth-quarter rally to give Pass Christian its victory.

Sandra Martin with 29 points was high scorer for the winners with Henriette Wescovich second with 24. Toni Teretta with 32 was high for St. Martin.

A last-quarter rally by North Central Hawks caused the defeat of St. Martin for the boys' title. North Central scored 14-12 and 30-24 at the first two rest periods, while the Yellow Jackets tied the game 39-39 going into the final frame.

High scorers for the Hawks were Eugene Ladner with 15, Berlin Ladner, 12, Lionel Hoda and O. J. Peterson had 11 each.
